Hello, this program will allow you to enter your:
gross pay
savings rate
IRA investment rate

This program uses a seperate class to do all calculations.
It will use the gross pay enterd, and calculate your savings and
IRA investments based off of the perventages you input.
Zachary Stall

>> Enter your gross pay amount:60000
>> Enter your savings rate:4
>> Enter your IRA invesmtment rate:5

The gross pay is:                $60,000.00
The savings rate is:              4.0
The IRA investment rate is:       5.0
The savings amount is:           $2,400.00
The IRA amount invested is:      $3,000.00
